REPLY FROM "HAT"

Subjoined is another letter from Mr. Wm. Constans, of Medicine Hat, Alberta, regarding Mr. George Lane. In this matter we wish our readers to hear both sides, confident everyone who takes The News has sufficient common sense to judge for himself or herself.

Mr. Constans says, regarding the article in The News: "Regarding Mr. George Lane, just tell us what he said. Don't know what particular thing you refer to having been said by Mr. George Lane, but I know him to be a very well informed person and one who is not afraid to say what he thinks. Let your readers hear from Mr. George Lane just what he has to say about Reciprocity. If you ask him I am sure he will tell you. Interview him when you go to Calgary and give your readers the benefit. His opinion is well worth while because everyone knows George Lane is just a business man and it is his kind that we want to hear from."

Mr. George Lane and I came to this country when the Bow River was just a small creek and we have been here ever since. I expect we have farmed on much the same principal and with much the same results. When George Lane tells you he will get five dollars per head for his cattle on account of reciprocity it is just a joke. Ask his partner Gordon and Farris if it isn't. They keep the books for the firm. This reciprocity thing, Mr. Editor, isn't a question of getting more for your wheat, cattle and horses, than for your eggs and butter. It's getting less for these than you are to get. God the figures you won't be able to hear from, except you write to the United States because our common sense and common equity. They are willing to go into the "past" without going to the trouble to prepare any figures. Now just fancy George Lane trading horses without equalling the other fellow's horse. George likes to job, but he always has his eye peeled when he is jobbing as when he left.

Now let us take up your other reason for being sure that Reciprocity is a good thing for Canada, namely, Bonds of Trade and other bodies in almost

(Continued on page 3)

PLEASED WITH BASSANO

Minister of Calgary Desires Express Themselves as Such—A Vote of Thanks.

The ministers of the Calgary despatch which held a session to town last week, were very much pleased with the visit to Bassano and did not hesitate to express themselves to that effect. The following resolution was carried "moved" by Mr. J. W. Jowett and seconded by Mr. J. W. Jowett and carried unanimously, that a hearty vote of thanks be given Mrs. Leveridge and the ladies of the women's auxiliary and others who so generously provided for our accommodation and entertainment during our stay in Bassano.

One of the ministers remarked "We shall remember our visit to Bassano with pleasure."

On Wednesday morning at eight o'clock communion service was held and morning service at ten o'clock. At 10.30 bible study was held and from 11 to 12 a business session was held. Lunch was served at Rev. Mr. Leveridge's home. From 3 p. m. until 6 p. m. a business session took up the time and discussion of affairs was discussed. The trip to the dam had to be given up because of the weather. Service was held at eight o'clock in the evening and afterwards tea was served and croquet and other games played.

NOTICE

TO WHOM IT MAY CONCERN

Take notice that the firm doing business under the name of Puffell and O'Brien has dissolved partnership.

The business will hereafter be conducted by E. F. Puffell. All account owing to or by the above firm will be paid to or by E. F. Puffell.

Bassano, Aug. 1st, 1911.

E. F. PUFFELL
JAMES O'BRIEN

Martin E. Johnson the noted travel agent and companion of Jack London while on the famous voyage of the "Stork" through the South Sea Islands at the Europa Theatre next Thursday, Friday and Saturday August 4 and 5. Two shows each evening. Admission 15 and 25c.

STOPPINGTON and District

BIRTHS

GOODRICH—At Stoppington, on Wednesday, June 29th, 1911, to Mr. and Mrs. Goodrich, a daughter, named Marjory.

RIND—The birth of Elsie Bird, the daughter of Mr. and Mrs. Wm. Henry Bird is reported at Stoppington. Elsie was born on Nov. 4th, 1910, while the parents were leaving their home at Dalnair last fall, hence the late announcement.

On Sunday, July 30th, a large crowd, young and old, left Stoppington, for an outing and picnic on Plover Lake. In advance, a large raft and numerous row boats were built and were in line on the shore, awaiting the excursionists. Rowing and sculling were the pleasure of the forenoon. After landing, lunch was served on the grass, where justice was done to a splendid display of all kinds of dainties prepared by the ladies. Boating and bathing was the program for the forenoon of the afternoon, then again on the shore racing was held.

The results—Ladies race, Miss Louise Bridler won the first race, and Mrs. Alex. Scott the second race. Gentle race, Alex. Scott won both the first and second running race. Good for him! Mr. Alvin C. Stopp, while helping to bring the boats on shore, fell in the lake and there was some excitement for some minutes until his companions came to his assistance to help him out. Of course A. C. Stopp was wringing wet when landed on shore. Thanks to the ladies who were on the committee: Mrs. Alvin C. Stopp, Mrs. Alex. Scott, Miss Louise Bridler, Mrs. D. V. Osborn,

Mrs. T. C. Fleming and Mrs. Harry Keller. The committee of men were as follows: Alvin C. Stopp, Alex. Scott, D. V. Osborn, Walter Bridler, T. C. Fleming and Harry Keller. Thanks to the committee for the good time they had planned and succeeded in giving the day of our crowd of picnickers. The day was a pleasant one and every one went home happy and well pleased.

On Wednesday, 11th, 1911, Miss Louise M. Bridler and Walter Bridler arrived at Stoppington to be the guests of Mr. and Mrs. A. C. Stopp for the summer. Miss Louise Bridler is a girlhood friend of Mrs. A. C. Stopp's, both ladies being from Detroit, Mich. U. S. Mrs. Bridler and her brother, Walter Bridler, are enjoying the prairie to their hearts content; horse back riding being one of their greatest pleasures. The prairie life is a treat and change for them from the busy city life.

CROPS

Crops surrounding the Stoppington district are a No. 1. A bumper crop of oats, wheat, flax, barley, as well as all kinds of vegetables is expected. The oats were measured a few days ago and averaged 67 1/2 inches in length. How is that for growth! The grass looks fine, and a large crop of hay is looked forward to.

Success to Stoppington people and all those who are on the prairies surrounding them.

Mosquitoes are bad, but hopes are that they will be at an end soon.

A PRAIRIE LASS.

TRIP TO BASSANO

Members of Irrigation Convention Will Be Here on August 10—Direct to the Dam.

The town of Bassano will be visited by the members of the Irrigation convention which meet in Calgary next

week. On Thursday, Aug. 10, a trip will be run to this town and the party will visit the dam. Luncheon will be served at the dam and the party will be on the trip. That Bassano was asked for the objective point of the trip should be a matter of interest to the citizens and the visitors should be cordially welcomed.

Notice to Creditors

In the matter of the Estate of ANNIE JOHNSON late of near Bassano in the Province of Alberta, Widow, deceased.

Notice is hereby given that all persons having any claim or demands against the late Annie Johnson, who died on the Fourth of April, 1911, near Bassano aforesaid, are required on or before the 26th August, 1911, to transmit to the undersigned Solicitor for the Administratrix of the said Estate, their names and addresses and full particulars of their claims in writing and a statement of their accounts and the nature of the securities (if any) held by them such Statement to be verified by Statutory Declaration.

And take notice that after the 26th August, 1911, the Administratrix will proceed to distribute the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which she shall then have had notice, and will not be liable for the said assets or any part thereof to any person of whose claim she shall not then have had notice.

Dated this 21st day of July, 1911.

FRED LANGMUIR,
Calverholm, Alberta.

Solicitor for the Administratrix.
Approved ROBERT WINTER
Acting J.D.C.

flax in Alberta. Thirty bushels an acre is expected. The estimates given in this article were made by men who have made a study of crops. Norman Rankin, publicity agent for the C. P. R., was down here last week with several others including J. W. Renton, of the Canadian Development Co., and samples of grain were taken back to Calgary to open the eyes of the people of the Ambition City. That this is the best wheat growing centre in the province is expected to be conclusively proven this autumn.

FIRST IN THE WEST

Grain Estimate Flax—30 bushels to the acre.
Fall wheat—From 65 to 80 bushels an acre.
Spring wheat—From 40 to 50 bushels an acre.
Oats—From 70 to 80 bushels an acre.
Spring wheat 4 foot 6 in high.

The Bassano district will have the distinction of harvesting the first grain in the west. If the expectations of the Canadian Development Co. are justified. The grain on the company's farm is ripening fast and a delicate shade of light brown has robbed the bending stalks of their fresh greenness. Inside two weeks time wheat is to be cut on this farm.

A GLORIOUS SIGHT

The crop around Bassano is really glorious to see. On every hand the gleaming prairie is a sea of waving grain, the heavy headed stalks rustling and murmuring as they gracefully bow before every zephyr that crosses the prairie. Camphor falkin giving a description of the fields for nothing can compare with them. So thick that the heads seem to bunch together, the result of the season's work, of plowing, seeding and anxious watching, stands in the grainfields. There is unity a small fortune around this town in the grain. The drought of last year caused the farmer here to plow, with anxiety early in the spring, then followed the rain and satisfaction set in. In still content on the faces of all. Days of sunshine and blue Alberta sky intervened and up to the present the weather combined has been perfect. Now for the harvest.

A SUCCESSFUL CROP

Flax has been proven an unequalled success as a crop, in this locality so far. H. W. Pattin planted many acres and up to the present the flax has not seen the equal of the Pattin

NYAL'S LAXENA

A fine old formula that has been popular for forty years—a mild laxative that you can always depend upon. It is particularly suited to children, for it is the best known substitute for castor oil but it is equally good for adults. While certain to be effective, it will not gripe. Price 25c.

Babies take Laxena very readily and like it. If baby is cross see to it first that his bowels are free and natural in action. That may be all that is wrong.

Laxena is absolutely harmless.

J. H. SHARP

L. D. NEBBITT,

Editor

THURSDAY, August 8, 1911

The question that will loom up in large letters at the coming federal election will be that of reciprocity with the United States. Parliament has been dissolved and the politics at parties are marshallng for the fray. Ripples reach here from the turmoil at Ottawa and soon the campaigners will be stamping the west.

Reciprocity as we have stated, is the main issue. Mr. William Cousin writes a letter which we give due prominence to, on this question. In our opinion this letter is given without political bias, as a western man's mind should be, reciprocity will benefit Canada because of the wider markets that will be available for her farmers and particularly the western farmer. Students of political economy assert that, the food consuming population of the United States has grown out of all proportion to the food producing population. The big cities have multiplied their population in recent years and natural riches such as the mining of coal, have been exploited.

The men working in these places need the food products and a tariff of 20 cents a bushel on grain bars Canadian wheat. This bar is run down and Canada has a splendid market for her grain. As it is now Canada is the third best customer of the United States. Under reciprocity we will sell more to the United States of the natural products we do not need and buy more of what they have to sell and we have to buy. Because the United States is larger than Canada we do not see why people should look upon the proposed pact with suspicion. Trade must be mutually beneficial and one cannot well see how the United States would flood Canada with grain with reciprocity when such flooding is not being done now that when the duty on grain coming into Canada from the United States is just half the tariff on grain going from Canada to the United States.

Mr. Cousin asks what Mr. Georgeouson's opinion on this matter is. What it is now may be different from what it was, but all the same Mr. Georgeouson would not vote against reciprocity at the Calgary board of trade meeting nor would he come out directly against it. Geo. Lane must be a fearful "jollier" if he can get up at a meeting of business men and declare in his vehement way that cattle will go up \$5 a head and grain 25 cents a bushel in the event of reciprocity, and then not mean what he says. His partners must know that a duty on cattle, sheep horses and etc., now hinders shipping to the United States and with reciprocity this hindrance will be thrown down much to the advantage of Canadian ranchers.

When Mr. Cousin characterizes the meetings of the farmers unions and boards of trade when reciprocity was discussed as "cooked" meetings he makes a serious accusation, and one which we do not care to discuss. There were a mighty lot of farmers in this "cooking game" and if we saw the real thing of the tariff on their grain 25 cents a bushel we don't blame them. And it is what they'll say at election time that will count.

One of the greatest features of the Boy Scout movement is the fact that it fills the boy's life full of active physical work, at the same time developing industry to the extent of making him consider it beneath his dignity as a true Boy Scout to do anything which would hurt his own life or to the property or character of others.

It is not always possible in the smaller centers to find philanthropists who will donate gymnasiums or club-rooms, but it should be possible for every village council to set aside athletic fields for purposes of team play in the summer and to be used as skating rinks in the winter.

IN SUNNY ALBERTA

Newspapers of Interest Province Wide - Reporters Fine

D. O. McHugh, secretary of the Calgary Grain Exchange, who has returned from a trip through the north-western states, declares that the grain crops of Alberta are fully one-third better than those of any state he visited.

Sheep shearing for this year is nearly over in Southern Alberta and the estimated clip is two hundred and eighty thousand pounds, valued at nearly forty thousand dollars. Each fleece averaged about seven pounds, and the prices ranged from 12 1/2 to 15 cents a pound. Most of the wool was shipped to Toronto, and is of excellent quality on account of good feed this spring.

The Viking Creamery of Alberta was awarded the first prize in the butter packing class at the Winnipeg fair.

It is stated that all new immigrants will be made within a couple of weeks as to the exact location of the new western shops of the Canadian Pacific Railway. Calgary, Medicine Hat and Lethbridge think that they have the best chance to land the big industry. The city that gets the shops will get the prize, as it will mean the employing of thousands of men and the exultation of a huge sun of money.

Mr. George Lane, the well known Western rancher and horse-breeder, carried off several prizes at the Winnipeg Fair this week.

Eureka Theatre

See Gus Johnson at the Eureka Theatre this week. We want you to see the first night and then you will come to every show. See stage South Sea songs and others. Be sure and hear the others.

Martins Johnson's Travels are beautifully colored pictures of South Sea Island life. Canals, savages, war, the warships and tribal life of the little known South Pacific people shown in the series of motion picture photographs. Eureka Theatre and Photo.

Next Thursday on exhibition will be one of the largest collections of Southern Island Canoes ever brought to this country in connection with Martins Johnson's South Sea Island Travels. The first night, Aug. 3, 4 and 5. A complete change each night.

Remember Martin E. Johnson's Travels are absolutely different each night. See the first and you will see them all. Eureka Theatre, Thursday, Friday, Saturday, Aug. 3, 4, 5.

In the Province of Alberta there are now 11,905 subscribers to the government telephone system, 9,905 of which are in the cities and towns, and 3,000 in rural districts. There will be at the end of the 1911 construction season, 4,000 miles of trunk line in the province and 3,000 miles of rural line, or a total of 7,000 miles exclusive of the construction in the cities and towns. The construction season has been one of remarkable activity, and before the close of the year 1,500 residents of rural districts representing 1,500 miles of new telephone cable, will have been added to the list of new subscribers in the telephone directory. Eight hundred miles of trunk line will have been constructed before this snow flies.

A TOUGH JOB

Editing a paper is a nice thing. If we publish jobs people say we are not to be trusted. If we don't we are foolish. If we publish original matter they say we don't give them enough selections. If we give them selections they say we are too lazy to write. If we don't go to church we are heathens. If we do go we are hypocrites. If we remain at the office we might be out looking for news items. If we go out then we are not tending to business. If we wear old clothes we are stingy. If we wear new clothes they say we have a pal. Now, what are we to do? Just a little more of the same will say the two sides from an exchange. So would, but they also state it.

Synopsis of Canadian Northwest Land Regulations

Any person who is the sole head of a family, or any male over 18 years old may homestead a quarter section (160 acres, more or less) of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

DUTIES - Six months' residence upon cultivation of the land in each of three years. A homesteader must reside six months in each of three years from date of homesteaded entry (including the time required to erect homesteaded plant) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption must take a particular homestead in certain districts. Price, \$3.00 per acre. DUTIES - Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$200.

A GOLD MINE

Professor Shaw, the greatest agricultural
economist the world ever saw, who visited
the Bow Valley lands said: "There is greater
wealth in the upper 12 inches of soil in
Alberta than in all the gold mines in America."

THE PROFESSOR WAS RIGHT

The soil of Alberta is amongst the richest in
America, containing all the valuable constitu-
ents that nature has stored up during past
centuries. And it only awaits the turn of
the plow to yield up its treasures.

REPLY FROM "HAT"

(Continued from Page 1)

every town, village and city in Canada
stood for Reciprocity. I think what
you say about this is correct. They did
and why? The Government wanted an
expression of opinion from every Board
of Trade that they could get a favorable
resolution from. They sent word to
one of the faithful at every point where
there was a Board of Trade or where
there was an earnest for being a Board
of Trade asking for a resolution. The
President of the Grit executive "the
fellows who decide regarding patronage"
of their city (they have a Grit executive
at every point where there is a land
office) wanted a resolution regarding
Reciprocity from the Board of Trade
of Medicine Hat, and was told that no
such question should or would be intro-
duced at Board of Trade meetings here,
because members considered both
political parties, many of them hide
bound, and bringing up questions of a
political nature was apt to do the Board
a bad turn, so he did not bring it
up. I brought it up at a meeting one
day when I saw the meeting consisted
of about two-thirds against Reciprocity
and one-third for. I did it for a job
like George Lane told you about the
wheat and withdrew the motion when
I saw some of the fellows get hot about
it. I didn't want to hurt our Board of
Trade. It has been doing good work
for our city and I want it to continue.
I have no axe to grind in this matter.
I am a Conservative it is true, and have
never always supported the Conserva-
tive party but not always. I was
against the Conservatives in 1896, when
I thought the party was dominated by
grifters like the Liberal party is now,
and I will be against them again if
they ever try to govern this country by
the same methods as adopted by the
Grits.

The next General Election as you say
will tell whether Reciprocity is in favor
of the masses or not. In the mean-
time the reciprocity given Mr. Burton
on his recent visit tells as much about
the sign of the times as cooked up
resolutions by Boards of Trade or Grain
Growers Associations tell.

Your dubbing me William Hat is a
little pleasant that has been worked
so often during the past twenty years
that I feel sure it will not be considered
so good a joke as you may think it is.

At the risk of taking up too much of
your space let me explain that new
comers in Bassano or Canada unless
from Great Britain will not be able to
vote on this question, until they have
lived in Canada longer than Bassano
has been on the map. I think I know
when it went on the map and believe
that our American Consul is now resident
in Bassano will by the time they have
the right to vote on the Reciprocity
question be as much against the Jug
and all largess as I.

Yours truly,
W. Cousins

CROWFOOT NOTES

Watch Crowfoot grow!

Messrs. Armstrong and Robinson,
since starting their blacksmith shop,
have kept busy.

Quite a lot of people are pinning at
the Cat Off this year. The berries are
very fine and plentiful. Fishing also is
good.

Mr. William of Betty Creek paid
Mr. Robb a visit on Friday on his
return from Calgary, where he had
been staying with his son, who has
a very fine lot. We are glad to learn he
is going very able.

O. S. Armstrong gave a dance in his
new barn on Friday, Feb 25th. There
were forty guests and everything went
off an enjoyable evening. Mr. Arlison
has a farm nine miles straight out of
Crowfoot.

ANOTHER SUCCESSFUL YEAR

FOR WESTERN CANADA COLLEGE, CALGARY

This well known Resident and Day College for Boys has just closed
another very successful year. The attendance has steadily increased and
the total registration for the year has been the largest in the history of the
college. Twenty-four of these students have written the Junior matriculation
examinations for Alberta and McGill Universities. The results of the Mat-
riculation examinations just received are very gratifying, one not taking any
place in all Canada in a large field of candidates. The results of the exam-
inations for the Royal Military College, Kingston, Ontario, are also very
satisfactory. The college has been successful in securing for its students
the most important addition, however, has been in the Transvaal.
This building has been fitted up in the latest and best manner under
the care of an expert. A special instructor from Cambridge University, Eng-
land, has been engaged. His whole time is given to the training and in-
struction of the boys.

Their First Annual Gymnastic Exhibition or Assault at Arms was a
great surprise to parents and friends. The College continues its success in
equipping its boys with the latest and best in various leading lessons.
The College authorities are making preparations to sell the present
year and move to the new College premises. It will take some time,
of course, to perfect plans and erect buildings on the new property of thirty
five acres, but no expense will be spared to get the most improved the
best equipped and most sanitary buildings, both for Residence and Class-
room requirements. The College will also get these improvements, for it
is the oldest, the largest and the best known C. C. of the United Canada-
west of the lakes. It was founded before Alberta and Saskatchewan be-
came Provinces in the recent of success in preparing boys for College and
Business is amply testified by the high places taken, the scholarships won,
and the testimonials received.

HUTTON NEWS

Citizens, a petition for local improve-
ment is awaiting your signature at the
postoffice.

Mushrooms don't taste good any
more. A seven pound pickerel looks
and tastes better, along with new wide-
toes.

R. Larson and C. Bry have gone on
the Red Deer to pick up a lot of the
lumber they lost some time ago, when
their raft was broken up.

The blacksmith met with an accident
while shoeing a horse. He got two
fingers badly cut, but is too stubborn
to keep from working.

Have just been informed that Mr. A.
Hedman has got his pasture ready so
that he can take in horses at a rate of
10 cents per head a day or night and
also the finest water in the country and
as it adjoins Hutton it will be a great
convenience to people that travel
through.

The bylaw has been changed and
small black hares to be mowed. Two
already have been mowed. This is to
make more room for business places
and better residences. New places of
business are to be erected this fall, as
business is on the increase now, and is
liable to strike the hundred thousand
dollar mark as the crops out here are
second to none in Alberta.

The greatest excitement Hutton has
seen for a long day happened one day
last week when a rabbit dropped into
town and some dogs took after it. Mr.
Jack Rabbit led the dogs a merry chase
everybody got on to the sidewalk to
see the fun. One of the ladies got too
close to the rabbit just missed her.
She did not get frightened much.
Some ladies remarked that it was the
fastest race they yet have seen. The
rabbit escaped.

WHAT IT MEANS

Reciprocity will result in the free
access to the United States of the fol-
lowing:

Cattle	Onions
Horses and mules	Apples
Pigs	Pears
Sheep and lambs	Peaches
Poultry	Strawberries
Wheat	Butter
Rye	Cheese
Oats	Fresh milk
Barley	Fresh Cream
Beans	Eggs
Potatoes	Hay
Corn	Straw

Canadian fishermen will have free
access to the United States market for
the following products of waters of the
Province:

Mackerel.
Herrings.
Hollies.
Salmon.
Cod.
Oysters.
Lobsters.
Crabs.
Shrimp.
Mussels.
Clams.
Scallops.
Squid.
Cuttlefish.
Crabs.
Shrimp.
Mussels.
Clams.
Scallops.
Squid.
Cuttlefish.

Canadian lumbermen will have free
access to the United States of the fol-
lowing standard products:

Timber, hemlock and spruce.
Sawed boards, shingles, and poles.
Paving blocks, railroad ties and poles.
Wooden staves.
Pickets and palings.

The mining men will find sale for
their goods by free access to United
States markets for:-

Flour.
Mills.
Tea.
Alcohol.
Tobacco and other exportables.

Wheat flour and oatmeal.
Meats, fresh or refrigerated.
Beams and limes.
Boards and poles.
Lumber.
Coal and steam and power.

GENERAL ELECTION

winning to the impossibility of Transacting Business, the Government Decides to Appeal to the Electorate —A General Election is to be Held on September 21—Reciprocity the Question.

OTTAWA.—With over two years of its length of office still to run, the present government of Canada has on dissolved the government on Saturday morning, after the meeting of the cabinet council decided at any further attempt to pass the reciprocity agreement in the face of frank and determined obstruction from a minority of the people's representatives in parliament. In accordance with the advice of his ministers, the governor general issued proclamations dissolving the present two weeks sitting parliament, and calling for a new election and a new parliament on

The eleventh parliament was closed probably to not a few of the participants after a long thought process that after a long time, the place thereof, shall know no more. The election is brought forward to the earliest time possible which the writs of November who can be gotten ready. The work of the revising judges has been quiet for some time past two weeks. It is expected the revision will be completed by September 12, allowing a week for the printing and forwarding of lists to the polling divisions.

has not yet been definitely decided whether there will be any delayed elections. If conditions permit all the elections will be held on the same day, although probably it will be found impossible in Mexico-Atlin, where more than a week is required between nomination and polling day to have the ballot papers printed and forwarded to the outlying polls.

parliament together as early as possible in October after the return of the writs. This will probably be on Wednesday, Oct. 25, when the new parliament will be sworn in the wake of Connaught. It will be a sort of extra session for the passing of reciprocity measure and supply for the balance of the current fiscal year. The second session of the new parliament will be held probably beginning in February next year.

It is generally agreed that the two main issues will be vigorous and bitter debate on the free trade issue though the National-Conservative alliance of Quebec province will endeavor to introduce a rival issue into the contest and end the rivalry.

be raised in Ontario and other parts of the country.

Sir Wilfrid Laurier and all his ministers will be on campaign next week, and arrangements are being made for meetings in all the provinces are now under way. The prime minister will visit the highlands principally to the central provinces of Ontario and Quebec, but will also probably make a brief tour of the maritime provinces, where Messrs. Tompeman and Gwynne will also be on campaign. The Pacific coast and the prairie provinces, Hon. Mr. Fielding, Mr. Frederick Brown and William Pugsley have directed their attention to the maritime provinces.

The finance minister will also address a few Ontario meetings. Opponent Leader Borden will give most of his time to the west and north-west, though time may be found for him to deliver a few speeches in some of the other provinces.

The Location of Car Shops

ment of Sir William Whyte that would be impossible at present to make, to advantage, use of any location east of Alberta, would seem to be Calgary the reference. The president of the C. P. R. returns to Montreal and he will then be urged to make an announcement. Among the work that the new shops will have to handle will be the manufacture of about eight hundred locomotives for western lines.

tion recently in the action of the Canadian Pacific Railway against the Canadian Pacific Land Co., Counsel Edge, on behalf of the plaintiffs, had leave to serve notice on the defendants restraining them from offering land for sale. He said that it was well known that they were doing so in an advertisement inducing the public to purchase the land.

Canadian Cadets Win Many Trophies
London. — The Canadian cadets' prizes include \$125 in cash, four cups, three gold medals, eight silver bowls and nine bronze medals. They are very gratified at the three months' success.

HOMEMAKING NEAR BASSANO

The following story is interesting to the people of this locality because it tells of life on the homesteads in this vicinity. The story was printed in the Calgary Alberta and is about Henry Wilco, who lived eighteen months in China, and gave up that climate for bracing western Canada. In hopes to make a shako and a home and settle down. The story is printed from when Henry reaches this part of Alberta.

Henry found himself in the midst of a considerable land boom. Upon his arrival, nearly thirteen months previous, he had located in the Red Deer district, some twenty miles north of Bassano, where he secured an excellent quarter section of gently sloping prairie proximate to the Red Deer river. On this during the summer he had erected a small two-roomed shack, a sort of dugout suit him for his animals, and had fenced the greater portion. With the assistance of one farm hand, he had broken and sown to winter wheat, potatoes, and vegetables; during the summer and fall, nearly a hundred acres and on the result of his crop practically depended his success or failure. His tiny capital was all invested in this venture, of his heretofore life he had been his waterloo—the death knell to his aspirations, his marriage, his future happiness. It had been, however, a cold winter, with much snow, and everybody said that the ground was in excellent condition for winter wheat—pull of manure and manurement—the

kind of winter we had four years ago," they said, "when we had such bumper crops of all kinds."

Spring passed away into summer with the whole countryside plunged in weather. Never had there been such crop, never before such yields as the prolific soil now gave forth.

In view of all this, before him, his proposed trip east to being. Edna took with him, would be out of the question. Seventeen of the eighteen months had as the time limit in which he was to return for her had gone by when he decided to place the situation clearly before her, showing her how his absence just at this time would mean the probable loss of his crop, the cancellation of his credit, and the general throwing up of success, which he felt was not quite assured. "I wrote her this at length, and ended by begging her to come out at once to Bassano and marry him."

The eighteenth month slipped away swiftly, and yet Robert had received no answer from the east. They four morning till night, as he had been, he had little time to write, and though in the midst of his heretofore life he had been his waterloo—the death knell to his aspirations, his marriage, his future happiness. It had been, however, a cold winter, with much snow, and everybody said that the ground was in excellent condition for winter wheat—pull of manure and manurement—the

aries. A trial had been made of the winter wheat, which went as bushels to the acre, and the security of a loan from the local bank was not as easy a matter as previously it had been difficult. He had accepted, however, but a small one from "The Co-operative," which he laid out in furniture, and in making the modest house more attractive for the reception of his bride, and as he looked over the busy shack and thought that soon he would share it with "her" he felt his heart glow with ownership and pride. Work went down honest endeavor, success won after great effort on only impart such a feeling. As he rode to the station to see Clifton imploring Edna to come West at once his little ranch has never seemed so homelike.

He reached Bassano towards the close of the afternoon, just as the Pacific Express pulled into the station, which was crowded with arrivals. The little town had a very previous origin profile, hunched and steep, and four-story hotel was nearing completion. Gilding no help, however, to all this, he rode straight to the telegraph office, turned his steps to the restaurant to satisfy his hunger.

At that time of day the place was crowded, capacious, and the "dinner," railroad employees and purchasers, allowing each other in western fashion in their endeavor to get seats at the tables. The air was filled with the hum of conversation—thick with tobacco smoke. If it fell well out, everybody spoke of the body, and everybody else to each other. It was democracy let loose; people rule in the appetitive; socialism on the level the West, Westernized.

Henry finally found himself seated at a small table in the corner with several other men, waited on by a pert, trim maid, who by the familiar way in which she addressed them as "Harry," "Bill," and "Tex," none have been steady frequenters of "The Owl."

He paid but little attention to the conversation about him until the word "Clifton" fell on his ears. He had been usually been in Clifton in his thoughts at the time but it somewhat surprised him to hear it spoken aloud.

"Oh, it's not such a bad little town," said one, languidly, "but the girls are no good. Last time I was there I was introduced to the bunch, but they didn't strike me as being particularly virtuous or good-looking."

Henry felt the blood rising resentfully to his face, and half started from his chair at these words, but the other without noticing him, went on: "Yes, got acquainted with half a gang of ten up to Thomson's barn, felt one night, an' met little Edna. What a'er-nause! I could be a belle, an' all that, but I don't feel her much in interest." By the way, though was read in the home paper only this morning that she's done gone and got spliced."

(Continued in next issue)

SPLENDID CONDITION
OF THE CROPS

Special correspondent J. N. McDonald of the Alberta, in a three hundred mile motor trip through the country south of Calgary, says: "A trip through Southern Alberta at the present time either by motor or by train is one of the most pleasant and delightful experiences that any one who is interested in the progress and development of the country could possibly have."

"The whole country is one mass of luxuriant vegetation which is more marked when compared with conditions last year. For miles and miles in every direction is a sea of grain fields interspersed here and there by black patches, showing that the farmers are by breaking new land or summer fallowing, making preparations for next year's crop. The amount of new land broken this year has only been limited by the power available."

"Southern Alberta will without doubt if nothing untoward happens, harvest the best crop this year in the history of the country. This is true not only of one district, but of every district in Southern Alberta."

"The harvest will be from two to three weeks earlier than in any former year, and already the fields of fall wheat are taking on a yellowish tint and are beginning to ripen for the harvest."

"The writer had the privilege last week of joining a party on a motor trip of over 800 miles through Southern Alberta, going as far south as Glenora, and east through Carmichael, Barons, Kipp and Monarch districts as far as Lethbridge, and saw, more uniformly good crops than he ever did before. He broke down through miles of alfalfa and miles of fields of fall wheat and other grains, usually every field of which gave promise of a very large yield."

AROUND TOWN

Mr. and Mrs. Raleigh were in town from near Hinton last week.

Mr. and Mrs. Henry of Cluny, visited Mr. and Mrs. Wright for a few days.

Mr. Buckingham and Allen were in Calgary on a visit.

Mr. Moore of McLeod has been transferred to the local Union bank branch.

Mr. Gerald Allen was in Banff over Sunday.

Jack Hood went to Calgary last week and underwent an operation for an affection of the foot.

W. Tegedris, formerly with The Bassano Trading Co. is now in charge of E. M. McCall's grocery store.

Mr. and Mrs. Boyd are holidaying among the foothills of the Rocky Mountains with a party from High River.

A dance was held at the home of O. A. Arneson, eight miles from here on Friday night last, the occasion being the raising of Mr. Arneson's new barn.

Mr. Fisher successfully underwent a serious operation in the Calgary hospital. He is now recovering rapidly, and is glad to hear he is recovering rapidly.

The telephone service will very shortly be installed and in regular working order. About thirty five subscribers have signed for phones in the town. Some of the phones are now installed.

Father Simolin, of Gleichen, celebrated mass here last Sunday. A considerable number attended. The Roman Catholics of the town are considering building a church here. A meeting was held at which this was discussed.

The gas well is to be cleared out. The gas of one now working at Gleichen will be here in the course of a week or so and will get the well in readiness for supplying gas to the town. The gas will eliminate the stoves, it is anticipated inside a month or so.

Mr. F. Worlen has purchased the clothes cleaning and pressing business of Porter & Burdick. He intends putting in a dry cleaning process and other modern apparatus for pressing and removing clothes. These have been ordered from Chicago. A good tailing will also be secured.

Mr. James O'Brien has severed his connection with the firm of Purcell & Clifton. Mr. Ed. Purcell, in future conduct the progressive grocery and general store. Mr. O'Brien has made a lot of friends while in business in town, who will regret to hear of his retiring. Mr. Purcell has enlarged the store and will have a bigger stock than ever.

Mr. C. A. Crawford, of the Masonic Mutual Life Insurance Co. and Mr. E. Darby, of the firm of Peglar & Darby, agents for this company, took a trip north of the Red Deer river last week on business. The two gentlemen return with glowing reports of the land. Everywhere growing crops delight the eye and promise bountiful returns.

The Bassano Masons marched to church last Sunday when Rev. Canon Hoggins, of Banff, preached to the brethren. Bassano lodge has increased manifold, numerically since its creation and now is a splendid lodge. The church parade was well attended and the eloquent words of Canon Hoggins listened to attentively. The service was held on the lawn of the Anglican church and many others, besides members of the order attended.

EARLIER CLOSING

Dear Editor,

I saw in your paper of two weeks ago, a letter upon the above subject from Labour Vicar and now most practically and politely asked for the assistance of the Mayor and Minister; up to now, I hear of nothing being done. It is time some one wrote to the clergy, Tradesman or other.

I am not in a morning till 6 at night enough. With the exception of Wednesday 7 to 8 and Saturday 7 to 10. I know well the monotony of a clerk's life, and just think of the clerks that go at 12 o'clock for dinner, and have to remain in office till 7.30 for supper. I say it is a shame, and the employers out of each clerk gets seven days work for six days pay, in not closing down at the regular hours or giving supper hour.

What carpenter, brick setter or laborer would work those hours and get paid for overtime, and yet their board-ing house keepers and wives, are the ones that are the direct cause in keeping shop clerks late. I would suggest that the clerks themselves be taking the matter up, if no one else will. I am of the opinion that the employers will meet them fair and square, and will agree the matter.

Hoping to see this in your next issue and thanking you, Respectfully yours, Viscount
